

VIPER 990

NEW OPTIONALS BODYMOUNT CARBON SET S9XX #903845

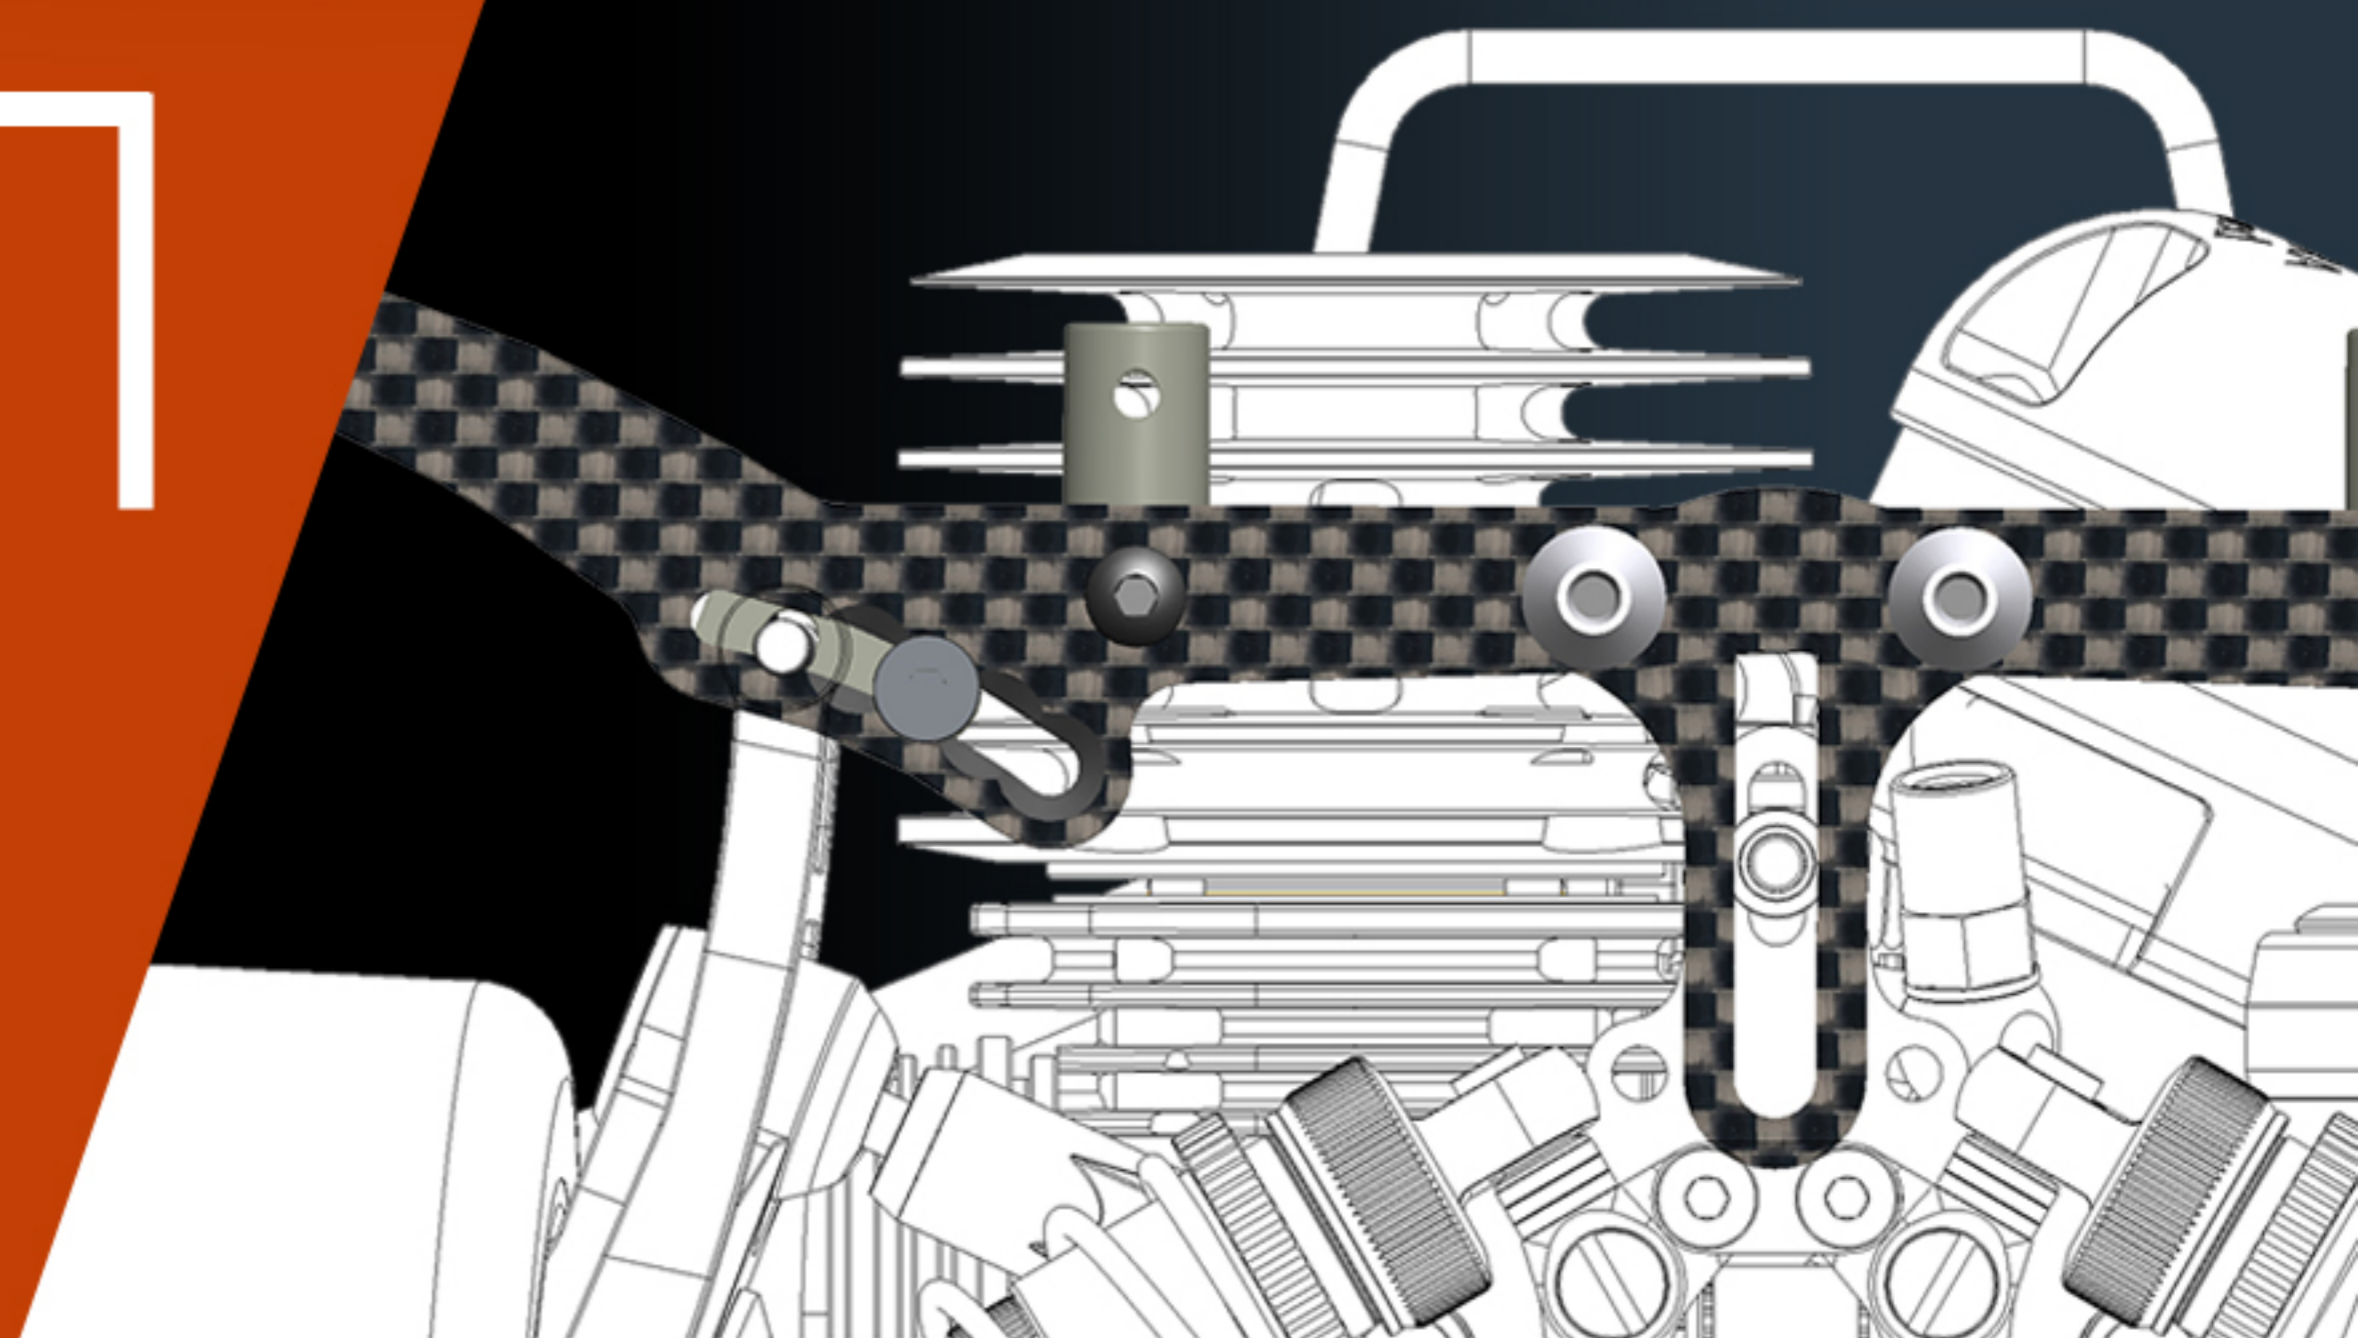

The new optional carbon bodymount is a much lighter version.

It provides excellent support for all Xtreme bodysHELLS. The total weight is 21g, which saves 14g compared to the standard bodymount.

The upper pin is securely fixed by an M3 setscrew which can be properly tightened in the hard anodized aluminium adapter.

The upper hinge **position** can be adjusted "on the fly" without even take off the bodysHELL
